DETAILED ACTION

Response to Amendment

In response to the amendment filed 6/11/2004, claims 9-10 are amended. Claims 9-10 are pending and allowed.

Allowable Subject Matter

Claims 9-10 are allowed. The following is an examiner's statement of reasons for allowance:

There is not taught or disclosed a method of forming an actively doped fiber comprising providing a first cladding surrounding an actively doped core and having a first polygon profile, surrounding the first cladding with a second cladding, and altering the polygon profile of the first cladding into a skewed or distorted polygon profile departing from the first polygon profile and further where at least one boundary of the skewed/distorted profile is formed into an arc shape.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Response to Arguments

Applicant's arguments filed 6/11/2004 have been fully considered and they are persuasive in convincing the examiner that the prior art of record is distinguishable from the present invention. See particularly the discussion of the prior art in the response, p. 13 et seq.
